

The PAC14 is a stylish refrigerant - 'Split' portable air conditioner. Split means there are two parts to the system, the room unit and the external condenser unit, the two are connected by a length of flexible hose. With the PAC14 Series 4 QC the smaller condenser unit can be placed up to 4 metres from the room unit.

### Specifications

|                                       |  |
|---------------------------------------|--|
| <b>Nominal cooling duty</b>           | 3.9 kW 13,300 btu                                |
| <b>Air flow (Max)</b>                 | 416 m <sup>3</sup> /hr                           |
| <b>Typical cooled area</b>            | 94 m <sup>3</sup>                                |
| <b>Power supply</b>                   | 230 V 1 ph 50 Hz Run 6.2 A                       |
| <b>Indoor noise level (max)</b>       | 47 dBA @ 2 metres                                |
| <b>Outdoor noise level (max)</b>      | 41 dBA @ 4 metres                                |
| <b>Indoor weight</b>                  | 44 kg  |
| <b>Outdoor weight</b>                 | 15 kg  |
| <b>Indoor dimensions (L x W x H)</b>  | 310 x 470 x 800 mm                               |
| <b>Outdoor dimensions (L x W x H)</b> | 250 x 490 x 525 mm                               |
| <b>PAC line length</b>                | 2.5 metres<br>(Optional extension 2 or 4 metres) |
| <b>Control</b>                        | Automatic thermostat                             |
| <b>Average power consumption</b>      | 1.35 kW/hr                                       |
